## **What do I need to open an offshore in the Arab Emirates?**

In the United Arab Emirates, setting up an offshore company has significant differences from other procedures. Our experts recommend to pay attention to the following aspects:

- the percentage rate of corporate tax is zero;
- there are no restrictions or requirements on the owners and shareholders of the company.

Our law firm, if you need to open or acquire an offshore company in this jurisdiction, will provide specialists who will help:

- select the optimal for a particular client organizational-legal form of the company;
- form and set the size of the authorized capital;
- determine the structure of the share capital;
- determine the structure of the share capital.

Connect with us right now and we will provide you not only consultations, but also full support of business in this state.

## **What do I need to know about the stages of registration?**

A thorough knowledge of local legislation is what is important when registering a company in the UAE. Our experts have a wealth of knowledge and experience in this jurisdiction, so although incorporation is a time-consuming process, you will find it very simple with us.

With our highly qualified specialists, the whole procedure will be as quick as possible. The whole process includes:

1. Taking into account the needs and requirements of the client the choice of business form.
2. Selecting and registering the company name.
3. Preparation of memorandum and articles of association and notarization.
4. Formation and submission of necessary documents to the Department of Economic Development.
5. Receipt of VAT payer number.
6. If it is necessary to pass the licensing procedure.

Licensing will not delay the operation of your business, it is completed at the same time as the registration procedure. The following types of licenses can be used in the jurisdiction:

- professional;
- trade;
- commercial;
- industrial;

These licenses are general purpose licenses, if your company is engaged in exporting or importing, then special licensing is required.

## Professionals are important

For a business to successfully grow at a fast pace, you need to entrust the management of your company only to true professionals. Since in today's world, there is no time for a long swing, competitors occupy all niches in no time.

Our professionals are not simple doers of routine work, they have specific skills and knowledge that you won't find in others. They are ready to take responsibility for the development of their clients' business.
